Requirements for Online Learning at IOU

- **Educational Requirements:** A high school diploma is needed for undergraduate programs, while various countries have different credit requirements. Students who do not possess one, or choose not to take exams or write assignments, can opt for the Audit Course of bachelor's and master's degrees.
- **Language Requirements:** Students must be able to read, write, and understand English, as it is the primary language of instruction. Arabic programs are taught in English, but a basic level of Arabic reading is required, with the exception of the master's degree.
- **Time Management:** Students need to allocate the necessary amount of time per week for them to complete their courses and be punctual in meeting deadlines for the module tests, assignments, and exams. IOU offers a time management course to help students.
- **Computer Literacy:** Students should possess basic computer skills, including the ability to use the internet for research, use of a word processor, sending and receiving emails, as well as how to open, save, download and upload files.
- **Exam Center Accessibility:** Students are required to take exams at IOU approved exam centers, so the nearest one should be located, or a request for a closer one to be established should be made.

IOU attempts to strengthen the capabilities of the underprivileged through the provision of quality higher education. Earning a university degree helps them create a better livelihood for themselves and their families, as well as empowers them towards the eradication of poverty in their communities. The United Nations has stated that the main difference between the first and third world is education. This is apparent with only 6% of sub-Saharan youth enrolled in higher education compared to the global average of 26%.

For this reason in 2017, IOU launched the African scholarships project with the aim of educating one million students in Africa and its diaspora. Alhamdulillah, within 6 years and with the support of our donors, we have reached 25 countries and have offered scholarships to almost 5,000 students. We've granted scholarships across Cameroon, Egypt, Eswatini (Swaziland), Ethiopia, Fiji, Gambia, Ghana, Jamaica, Kenya, Libya, Malawi, Morocco, Mozambique, Namibia, Nigeria, Rwanda, Sierra Leone, Somalia, South Africa, Sudan, Tanzania, Trinidad and Tobago, Uganda, Zambia, and Zimbabwe.
